Such rules shall not have the effect of waiving structural or fire performance requirements specifically provided for in this code, or of violating accepted engineering methods involving public safety.

Section 545.110: Inspections

The code official shall make all of the required inspections, or shall accept reports of inspection by approved agencies or individuals. All reports of such inspections shall be in writing and be certified by a responsible officer of such approved agency or by the responsible individual. Whenever necessary to make an inspection or to enforce any of the provisions of this Code or whenever the code official has reasonable cause to believe that there exists in any building or structure, or upon any premises, any condition which makes such building, structure or premises unsafe, the code official may enter the building, structure or premises at any reasonable time to inspect the same or to perform any duty imposed upon the code official by this Code;

provided, if such property be occupied, the code official shall first present proper credentials and request and obtain permission to enter before entering the building, structure or premises. Reasonable effort must be made to locate the owner or other persons having charge or control of the property when seeking permission for entry.

If no consent has been given to enter or inspect any building, structure or premises, no entry or inspection shall be made without the procurement of a warrant from the Judge presiding in the Municipal Court of Raymore, Missouri. The Court may consider any of the following factors along with such other matters as it deems pertinent in its decision as to whether a warrant shall be issued:

- (1) Eye witness account of violation.
- (2) Citizen complaint(s)
- (3) Tenant complaint(s)
- (4) Plain view violations
- (5) Violations apparent from City records.
- (6) Nature of alleged violation, the threat to life or safety, and imminent risk of significant property damage.
- (7) Previous unabated violations in the building or structure or on the premises.

The code official may enter the building, structure or premises without consent or a search warrant to make an inspection or enforce any of the provisions of this Code only when an emergency exists as prescribed in Article 1, Division 9.

Section 545.120: Search Warrant

If a complaint in writing is filed by the code official, any police officer, city attorney or prosecuting attorney of the City, with the Municipal Court of the City, stating that he/she has probable cause to believe there exists in a building, structure or premises, more particularly described therein, a violation or violations of provisions of the Code and is within the territorial jurisdiction of the City, and if such complaint is verified by the oath or affirmation stating evidential facts from which such judge determines the existence of probable cause, then such judge may issue a search warrant directed to the authorized person to search the building, structure or premises therein described for the purposes requested. Such search warrant may be executed and returned only within ten (10) days

Section 545.140: Coordination of inspections

Whenever in the enforcement of this code or another code or ordinance, the responsibility of more than one code official of the jurisdiction is involved, it shall be the duty of the code officials involved to coordinate their inspections and administrative orders as fully as practical so that the owners and occupants of the structure shall not be subjected to visits by numerous inspectors or multiple or conflicting orders.

DIVISION 5. APPROVAL OF ALTERNATIVE MATERIALS AND/OR METHODS

Section 545.145: Modifications

Whenever there are practical difficulties involved in carrying out the provisions of this code, the code official shall have the authority to grant modifications for individual cases, provided the code official shall first find that special individual reason makes the strict letter of this code impractical and the modification is in compliance with the intent and purpose of this code and that such modification

Initially adopted 11/26/2007; Incorporates Ordinance #29024 (2/23/09); Ordinance 29093 (9/14/09); Ordinance 2010-24 (3/22/10); Ordinance 2012-031 (4/9/12); Ordinance 2012-080 (10/22/12); Ordinance 2014-009 (2/24/14); Ordinance 2015-032 (4/13/2015); Ordinance 2016-049 (6/27/16); Ordinance 2017-031 (5/8/17); Ordinance 2018-007 (1/8/18)

Section 545.150: Alternative materials, methods and equipment

The provisions of this code are not intended to prevent the installation of any material or to prohibit any method of construction not specifically prescribed by this code, provided that any such alternative has been approved. An alternative material or method of construction shall be approved where the code official finds that the proposed design is satisfactory and complies with the intent of the provisions of this code, and that the material, method or work offered is, for the purpose intended, at least the equivalent of that prescribed in this code in quality, strength, effectiveness, fire resistance, durability and safety.

Section 545.155: Required testing

Whenever there is insufficient evidence of compliance with the provisions of this code, or evidence that a material or method does not conform to the requirements of this code, or in order to substantiate claims for alternative materials or methods, the code official shall have the authority to require tests as evidence of compliance to be made at no expense to the jurisdiction.

Section 545.160: Test methods

Test methods shall be as specified in this code or by other recognized test standards. In the absence of recognized and accepted test methods, the code official shall be permitted to approve appropriate testing procedures performed by an approved agency.

Section 545.165: Testing agency

All tests shall be performed by an approved agency.

Section 545.170: Test reports

Reports of tests shall be retained by the code official for the period required for retention of public records.

Section 545.175: Materials and equipment reuse

Section 545.200: Abatement of violation

The imposition of the penalties herein prescribed shall not preclude the legal officer of the jurisdiction from instituting appropriate action to restrain, correct or abate a violation, or to prevent illegal occupancy of a building, structure or premises, or to stop an illegal act, conduct, business or utilization of the building, structure or premises.

Section 545.205: Extension of time to perform work

Upon receipt of a request from the person required to conform to the order and by agreement of such person to comply with the order if allowed additional time, the code official may grant an extension of time, not to exceed an additional 120 days, within which to complete said order, if the code official determines that such an extension of time will not create or perpetuate a situation imminently dangerous to life or property. The code official's authority to extend time is limited to the actual compliance with said order and will not in any way affect the time to appeal the notice and order pursuant to Division 12 of this Article.
